MPX– Utility Pedestal

Composition:

- Pedestal – 2” X 2” 16 gauge 304 Stainless Square Tubing
- Total length indicated by suffix xx + yy
- Solid welded stainless cap tops off the Shroud.
- Under deck Flange – Welded 16 gauge sheet metal – black painted W/ anchor bolts and trim to secure pedestal to roof structure.

Practical Application: The MAPA Products Rainproof Utility Pedestal Switch provides a means to mount a variety of services for local applications. The Stainless Shroud with integrally welded deck flange enables a positive weather-tight flash of the unit to the roof membrane without the need for additional flashing or pitch-pan.

Features: The standard Stainless Steel Shroud extends above roof line thirty-six inches with an additional twelve inches of shroud beneath roofline so as to permit the unit to be securely fastened to the roof structural member by securing the under-deck mounting flange to a welded deck flange. The roof flange is provided with fastening hardware to enable the installer to secure the flange first against the shroud and
